

## CROSS BORDER TRANSACTION WITH

# TRANSFER PRICING IMPLICATION

Since the introduction of Base Erosion and Profit Shifting (BEPS) by OECD in June 2016, the landscape of Transfer Pricing (TP) has seen tremendous changes.

It does not only affect multinational enterprises, but also the local transactions for all relevant countries.

Therefore, this sharing session is to spearhead the learning process of TP Documentation.

TP is going through a more detailed development stage which involves the preparation of Country-by-Country (CbC) or Master File for multinational enterprises and Secondary File for local operations.

Moving forward, TP Framework and Documentation will be subject to more changes and audit by the tax authorities. Our speakers will share with you the development and requirements of TP Documentation in each countries.

**DATE**
