

Message from Mr. Chen Voon Hann, Chief Executive Officer, CAS Global

I am thrilled to celebrate the launch of the CAS Global network together with the Board of Directors, Management Team, member firms and our people across all our markets.

With '**Professional People for Quality Service**' as our purpose statement and our values of Integrity, Mutual Respect, Teamwork and Leadership, we aim to develop a robust network of professional firms and people that subscribe to the highest international standards in order to serve our clients better.

Our emphasis will be on quality and professional development. Additionally, we will collaborate with member firms to share resources in areas such as marketing, events & workshops and talent development.

With the upcoming introduction of the International Standards on Quality Management as well as recent news on the challenges facing our profession, there is no better time to join forces to uplift our profession and ensure the highest level of professional services to our clients.

I look forward to telling you more about our initiatives very soon and look forward to your participation.

Thank you.
