

## Message from Mr. Moe Kyaw, Chairman, CAS Global

I am pleased to welcome member firms, partners and staff to the CAS Global network.

CAS Global was formed when five like-minded firms — namely CAS Malaysia PLT from Malaysia, WIN Consulting Limited from Myanmar, Hendra Gunawan Public Accounting Firm from Indonesia, Shanghai Diacron CPA Co., Ltd from China and Juancho S. Ong & Co., CPAs from the Philippines — decided to join forces to form a new professional network of accounting and consulting firms that would emphasise Quality Management to serve a wide range of clients globally.

The founding members recognise the importance of leadership and **'Tone from the Top'** in responding to new requirements of the International Standards on Quality Management by the IAASB, and that Quality Management will be the cornerstone of our network.

The International Standards on Quality Management coming into practise in 2022 will impact how firms are organised and operate. This is where CAS Global believes it can make a difference to its member firms, as we not only apply strict governance criteria also ensure continual professional development. The network will also facilitate referrals on an exclusive basis between member firms, knowledge-sharing and human capital development.

To ensure the highest global standards are adhered to across the network and continual professional development, four committees have been formed that have accountability to both the Board and members. These are the Executive Committee, Audit & Assurance Committee, Taxation & Advisory Committee and Quality Risk Management Committee.

This is an exciting time for our profession. On behalf of the Board and Management Team, I warmly welcome you to CAS Global.

Thank you.

Date: 1<sup>st</sup> July 2021
